# 🔒 Password Strength Checker (GUI)

A simple **Password Strength Checker** with a graphical user interface built using **Python's Tkinter** library. It evaluates password strength based on length, use of digits, special characters, and mix of upper/lowercase letters.

## 🖥️ Demo

## ✅ Features

- Checks password length

- Detects digits, special characters, and letter variety

- Classifies password as **Weak**, **Moderate**, or **Strong**

- Displays password strength and score

## 🛠️ Tech Used

- Python 3.x

- Tkinter (GUI toolkit)
